

Managed Assurance GRC as a Service

Our Managed Assurance solution offers a fixed monthly fee model that provides a comprehensive staff structure or seamlessly integrates with your internal team.

Our team at Asureti diagnoses the problem and sticks around to help you solve it

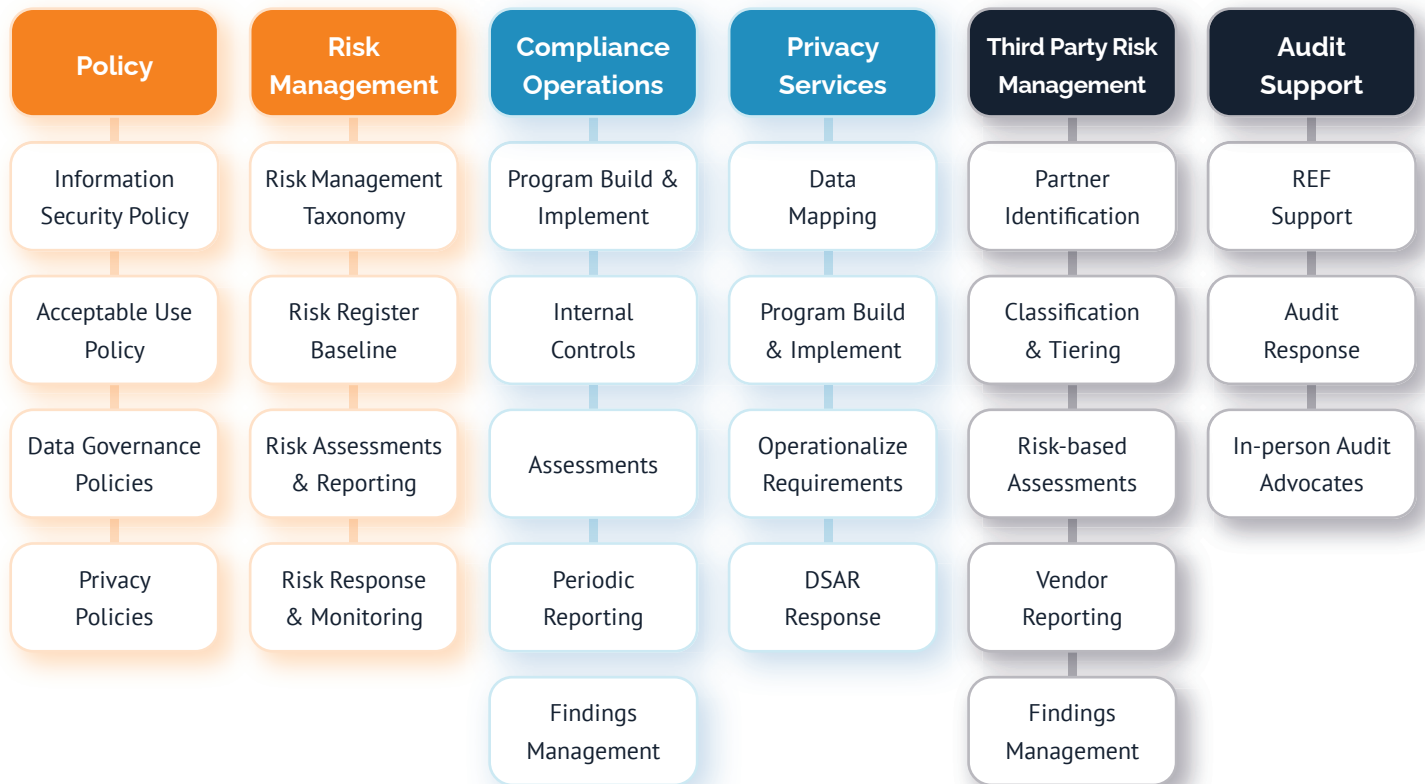

What our clients are saying:

GRC as a Service allows us to leverage the benefits of a GRC tool while working with an experienced and trained team that implements, advises and manages our GRC environment."

Customize your **GRC Managed Assurance** solution using the components below

Why Asureti's Managed Assurance?

Effective Resource Management

Align your operations with desired maturity, risk appetite, and business objectives – without the need to expand internal staffing and training efforts.

Content Accelerators

Leverage our proven program build approach and content accelerators to see your program operate or expand – fast!

Our Team is Your Team

Ready access to subject-matter expertise for risk, compliance, privacy, and security needs – our team is your team!

Flexible Skillset Mix

Capability to re-allocate team skillset mix as priorities change or supplemental support is needed

Technology Agnostic

We can use your GRC platform or provide you one. Procuring your GRC platform through Asureti's Managed Assurance services offers a cost effective way to leverage GRC technology.

Independent Perspective

Independent perspective for operational, audit, regulatory, and investor reporting requirements.

Your Partner and Advocate

A steadfast and knowledgeable partner and advocate when responding to client or regulatory inquiries and external audits.
